COM 1000

– quality and functionality at all times

With its stringently simple design, COM 1000 is the essence of a timeless carpet with an emphasis on exquisite quality and exceptional functionality. The classic expression sparks associations to cobblestone paving, a classic architectural element in the urban space.

The flat-woven carpet is the obvious first choice in settings with extraordinary cleaning requirements along with high standards for quality and comfort.

COM 1000 is woven from dyed-in-the-wool yarn, which ensures that the carpet will stay beautiful in settings that are subject to especially demanding cleaning procedures.

Available as residential broadloom.

For more information on our outlet broadloom and carpet tile selection, please see separate catalogues.
